

*\$400 tax credit will begin to arrive this week*

Washington, DC - Congressman John Adler announced today that more than 3 million New Jersey families will receive a \$400 economic recovery tax credit from the federal government this week. Congressman Adler supported this tax relief in the American Recovery and Reinvestment Act last month.

**"During these tough economic times, this money will provide hard-working Americans with the break they need,"** said Congressman Adler. **"I supported the Recovery package and this tax relief plan, because I believe it will help Americans pay their bills, support their families, and help the economy rebound. New Jersey residents pay too much in taxes, and I will continue to fight for even more tax relief for middle class families and small businesses."**

The Making Work Pay provision of the American Recovery and Reinvestment Act will provide a refundable tax credit of up to \$400 for working individuals and \$800 for married taxpayers filing joint returns. More than 3million New Jersey families will benefit from this tax relief.
